LOCAL AND MISCELLANEOUS.

Rev. Elliot will preach in the Presbyterian Church, on Sunday next, morning and evening. Sabbath School at 3 o'clock P. M.

Our town shootists bagged quite a number of pigeons on the surrounding hills yesterday morning.

A week ago yesterday the Republicans carried New Hampshire by about 2,000 majority. Not so bad for an "off year."

Rev. W. O. Allen has just closed five weeks of protracted effort at Bean Farm appointment resulting in 14 conversions and 8 accessions to the church.

Mr. Chadwick, the efficient Section Boss across the river, has placed us under obligations by presenting us with a nice mess of parsnips. They were excellent eating. May his garden never go back on him.

A colored preacher, whose name we did not learn, held forth in the M. E. Church last evening. We were not able to be present, but are informed that he delivered an interesting sermon, and was listened to with interest by a good-sized audience.

Derickson & Co.'s stave mill in town has enough bolts contracted for to run on full time for a year, at least. The mill at Tylersburg is in the same condition. All this notwithstanding the fact that new stave mills have been started all around there.

Mr. Tietsworth has been sinking a water well on the Holman property, on Vine street, by contract. He went down thirty feet and found no water to speak of, and has received orders to proceed ten feet more. The property belongs to one of the Clarion banks.

Mr. Bradbury, who purchased the Porter house, north of Smith Foreman's, some time since, is improving it in many ways. He plastered it shortly after taking possession, has built a substantial stone wall in front of the house, and has just finished painting it.

We give a good deal of our space this week to the publication of the Treasurer's Sales. A good many of our subscribers will be more interested in these sales than they would be in the freshest local news. Contrary to general expectations the number of sales this year is not much larger than usual.

O. W. Proper informs us that work on the lease held by himself and Fetterman, on Minister creek, above Balltown, will commence as soon as the roads get good enough to get machinery on the ground without much trouble. The rig is up and all ready for the machinery.

An oyster supper was held on Thursday evening last at the house of Wm. McGrory, by the Methodist society of Stewart's Run, which, notwithstanding the inclement weather, was well attended and proved a very enjoyable occasion. The net receipts, \$38.89 was applied upon their pastor's salary.

The pigeon-trappers are not doing very big business here, we believe, owing to the difficulty they experience in keeping spectators and hunters at a sufficient distance from their base of operations as not to scare the birds. The gang up about Balltown, however, are scooping them in at a great rate. They took eighty dozen in two days. They ship them at Sheffield for New York, where, we hear, they sell for \$3 per dozen.

Mr. Berry, who is sinking a well at Balltown, on Logan Run, for the Messrs. Grandin, of Tidouite, called at our office on Monday, and informed us that the well was down 625 feet, but that they had been troubled a great deal with water, and had been obliged to pull the casing and ream down four times since they commenced. They are now troubled with a vein of salt water, and will have to case below that, which will put them back several days.

The Tidouite News of last week tells of the capture of a lot of "home talent," in the act of going through the store of Mr. A. Dunn, in that place. The capture was effected through the manipulations of a young detective named Beatty, who got into the confidence of the burglars, and who was captured in the store with them. Others of the band were arrested on the evidence of the detective, and the whole gang sent to Warren. All will be apt to serve the State awhile, and learn some occupation whereby they may earn an honest living hereafter.

By a private letter from a friend in Jenks township, we learn that a well has just been finished at or near Marienville (we presume by Dr. Towler, although the letter doesn't state), and a good article of sand found at 500 feet, but no oil. We will be glad to have full particulars of oil operations in that section for our next issue. Will the gentleman who agreed to keep us posted in regard to that neighborhood let us hear from him?

The pond flood, which we mentioned last week, came off on Friday. Some thirty pieces came out. On Monday they tried it again, and we are informed that about the same amount came out on that flood; this includes lumber, square timber and logs for stave bolts, etc. At present writing the river is getting too low for running heavy rafts, but the weather is so changeable that we are liable to have water at any time, sufficient to float the lumber to Pittsburgh.

We desire to call the attention of all our sporting friends to the new advertisement of James Bown & Son, Pittsburgh, manufacturers of and dealers in guns of all kinds, and every variety of goods for sportsmen's use. This is a house which we are assured, by good men who have had opportunities to know, is strictly reliable, and parties dealing with them can rely upon the goods being just as they are represented. Added to this, it is the nearest point where a large and varied stock of such goods are kept, the freights will be less than from other points, and a careful consideration of the subject will convince our sporting friends that this is the house with which to deal. Send for their Illustrated Catalogue and Price List.

The editor of the Lewisburg Chronicle tells why country newspapers have to charge more than city newspapers, as follows: "We are often asked by well meaning persons, why they have to pay higher prices for the country newspapers than for those printed in the cities? Why do you charge two dollars a year for the Chronicle, when I can get the New York Sockdologer—a bigger paper—for a dollar and a half? We will try to clear up this mystery. Suppose the Chronicle has a cash subscription list of one thousand at \$2.00—that makes \$2,000. Well, now suppose the New York Sockdologer, or whatever paper you may choose for a comparison, has a paying list of 100,000, at \$1.50—that is \$150,000. Now suppose this city paper has a profit on each subscriber of but ten cents—that clears the publisher \$10,000.

Now suppose the Chronicle realizes only the same amount per subscriber—that would make the sum of \$100. This latter amount would compel a country printer to live very 'thin' himself, and squander nothing on his family; while his city cotemporary could wax as fat as Jeshurun. You see the necessity of a country printer charging more than a city printer, now, don't you? A paper the size of the Chronicle, with its circulation and price, couldn't live over night in a city."
